Commercial West  
Attn: Lu  
2800 Marble NE, Suite 10  
Albuquerque, NM 874110

Dear Ms. Lu:

I am writing this reference letter on behalf of Zohnnie Construction Industries, Inc. to give a little insight on the work that the company did for us in the year 2006. Ms. Harrietta Zohnnie had been helpful on working with our organization, SunUte Community Center, on a tree planting project that occurred on our property. Her company was very responsive to the demands that the Southern Ute Indian Tribe has on external businesses doing work on Tribal property.

Her open communication skills and her ability to respond to compliance codes made the work site and project easy to handle. This project was a five figure dollar job that required several different companies and Tribal departments to work together to make sure Zohnnie Construction did not destroy pipelines below the ground (gas lines, sprinklers, etc.). Harrietta pays attention to detail and is flexible when events have to change at the last moment and I have called on her company again to help us locate material we will be using in a landscaping project in front of our building for this upcoming summer.

If you have any questions or need additional information, please do not hesitate to call me at 970-563-0214 ext 2657.

Sincerely,

Kristi Garnanez  
Facility Operations Manager  
SunUte Community Center
